Voluntary Service

MITSUBISHI ELECTRIC Ceiling Fan

We would like to thank you for your continued support and for your confidence in our products.

In some models of the ceiling fans, we have recently found that a combination of factors, in particular, misshaped fan blades due to mishandling may result in an over-swing and imbalance. The continued use of such imbalanced fan over a period of time may lead to prolonged damages that can potentially cause it to be detached.

To ensure that our customers continue to use our ceiling fans safely, we are pleased to offer a complimentary inspection and safety enhancement to the ceiling fan models indicated below.

Customers are encouraged to call our authorized distributor, Peace Myanmar Electric Holding Co., Ltd. to schedule an appointment for this voluntary service.

Product (MITSUBISHI CEILING FAN with three blades)
