Mitsubishi Electric's New Plant in Gujarat, India to Produce Automotive Products

Will support expansion of environmentally friendly products in Indian automotive market

TOKYO, October 7, 2019 – [Mitsubishi Electric Corporation](http://www.mitsubishielectric.com) (TOKYO: 6503) announced today that it will start construction of a new plant on the premises of its subsidiary Mitsubishi Electric Automotive India Pvt. Ltd (MEAI) in Gujarat, India. The company's new plant, along with one in Manesar, Haryana, will enable MEAI to expand its output of products such as motor-control units for electric power steering, exhaust gas recirculation valves and giant magnet-resistance sensors, the demand for which is expected to grow in line with increasing sales of vehicles offering enhanced fuel efficiency and reduced emissions in the Indian market.

Rendering of MEAI's new plant in Gujarat, India

Mitsubishi Electric, aiming to expand the scale of its automotive equipment business, is developing a range of advanced automotive products by applying an extensive range of proprietary technologies for vehicles, engine integration control and high-density coil windings for motors.

Outline of MEAI's New Plant
